

# 5<sup>th</sup> International Conference on Computing Methodologies and Communication (ICCMC 2021)

08-10, April 2021 | [icocmc.com/2021/](http://icocmc.com/2021/) | [info.iccmc@gmail.com](mailto:info.iccmc@gmail.com)

## 5th Fifth International Conference on Computing Methodologies and Communication Computing Methodologies 2021 (ICCMC 2021)

### Technical comments

**Decision:** Major Revision

**Title:** HEART PULSE MONITORING AND NOTIFICATION SYSTEM USING ARDUINO

#### Review comments - 1

1. Heart Pulse Monitoring and Notification System Using Arduino is the proposed title.
2. Concept is good. Abstract can be improved with more elaboration and illustrations.
3. Section I introduction should be improved with more elaboration and illustrations. Need more clarity on IoT and IoT for patients, hospital, Insurance company.
4. Section II components required should be improved with more elaboration and illustrations. Need more clarity on Arduino Uno Board.
5. Need more clarity on figure3.2 flowchart and step 1 connecting the heart rate sensor module to Arduino.
6. Figures should be of high clarity and resolution.
7. Conclusion should be well written summarizing the merits and limitations of various methods.
8. On an overall observation, quality of presentation should be improved. High resolution images should be used for depiction. All figures should be adequately interpreted.
9. A note on future works and limitations of proposed work should be included in discussion.

#### Review comments - 2

1. Figure 5.1-5.4 are irrelevant.
2. No real time measurement is shown.
3. Pseudo-codes/simulation parameters/algorithm/ components/controllers used are not listed.
4. No qualitative results are shown. Given results appear to be imaginary.
